To avoid undue hardship, nothing in this Ordinance shall be deemed to require a change in the plans, construction, or designated use of any building or structure on which actual

Variance of yard requirements shall be obtained only through action of the Zoning Hearing Board.

b. Damage or Destruction

A nonconforming structure or building which is destroyed or partially destroyed by fire, explosion, an act of God, or by any means to an extent of seventy-five (75) percent or more of the market value thereof immediately prior to such damage or destruction, shall not be repaired or restored but shall be reconstructed and used only in conformity with the provisions of this Ordinance unless construction is begun within twelve (12) months after the destruction or partial destruction has taken place.

Lawful nonconforming structures or buildings with a replacement cost of \$1,000 or more, or of structure and premises in combination which at the effective date of this Ordinance or as a result of subsequent amendments thereto, become nonconforming may be continued so long as it remains otherwise lawful, subject to the following provisions:

a. Extension

A nonconforming use may be extended throughout any part of an existing structure or building, or a new extension may be constructed, provided that any structural alterations, extensions or additions shall comply with all provisions of this Ordinance with respect to height, area, width, yard and coverage

requirements for the zoning district in which the structure or building is located.

However, such extension of a nonconforming use shall not exceed fifty (50) percent of the gross floor area occupied by said nonconforming use at the time such nonconforming use became nonconforming.

b. Change to Use

A nonconforming use, if changed to a conforming use, shall not thereafter be changed back to any nonconforming use. A nonconforming use may, as a Special Exception, be changed to a nonconforming use of a less restrictive nature, provided that the Zoning Hearing Board shall find that the proposed use is equally or more appropriate in the Zoning District than the existing nonconforming use. A nonconforming use shall not be moved, in whole or in part, to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this Ordinance.

c. Discontinuance

When a nonconforming use of a structure or building, or structure or building and premises in combination, has been discontinued or abandoned for eighteen (18) months, such nonconforming structure and premises in combination, shall not thereafter be used except in conformity with the regulations of the district in which it is located.

d. Destruction

Where nonconforming use status applies to a structure, building and premises in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land. Destruction for the purpose of this subsection is defined as damage to an extent of more than seventy-five (75) percent of the market value of the structure or building immediately prior to such damage or destruction. However, if construction is begun within twelve (12) months after destruction or partial destruction, the same nonconforming use may be re-established.

306.6 Unsafe or Unlawful Structures

if a nonconforming structure or building or portion of a structure containing a nonconforming use becomes physically unsafe or unlawful due to lack of repairs and maintenance, and is declared by any duly authorized official to be unsafe or unlawful by reason of physical condition, it shall not thereafter be restored, repaired, or rebuilt except in conformity with the regulations of the district in which it is located.

306.7 Uses under Special Exception Provisions Not Nonconforming Uses

Any use which is permitted as a Special Exception in a district under the terms of this Ordinance (other than a change through Board action from a nonconforming use to another use not generally permitted in the district) shall not be deemed a nonconforming use in such district, but shall, without further action, be considered a conforming use.

SECTION 307 Flood Plains

It is the intent of this section to supplement the zoning district regulations with the Municipality's Ordinance 1-1982. However, if the zoning regulations contained in this Ordinance are more restrictive, then the more restrictive requirements shall apply.

307.1 Designation of Flood Plains

Flood plains are those areas that have been delineated in the Flood Insurance Study prepared by the Federal Insurance Administration dated December 5, 1997, and those areas which the U.S. Soil Conservation Service has classified as "alluvial" soils or "local alluvium" in the Soil Survey of Berks County.

The determination of the limits and the elevation of alluvial land subject to inundation by flooding, as a result of one hundred (100) year storm frequency, shall be the responsibility of the applicant. Hydrologic calculations shall be prepared by a professional engineer with demonstrated competence and shall be submitted for review by the Municipal Engineer.

SECTION 308**Slope Controls****308.1****Intent**

Steep slopes pose special problems for normal building construction and site developments in terms of runoff control, soil erosion, stream siltation, flooding, sanitary seepage, etc. It is impractical to delineate each separate steep slope area on the Official Zoning Map, therefore the following controls are intended to augment the provisions of the primary zoning districts.

308.2**Definition**

Steep slope areas, over 15 percent in grade, are delineated on the U.S. Soil Conservation Survey Soil Maps as slopes having a D, E, or F suffix. For purposes of provision of on-lot sanitary facilities, slopes of 8 to 15 percent grade or greater are considered steep slopes. These slopes have a Suffix of C, D, E, or F on the Soil Conservation Survey.

308.3**Uses Permitted**

- a. Parks, outdoor recreation;
- b. Agriculture, forestry, etc.;
- c. Buildings permitted in the primary district further provided that:
 1. Buildings or structures are not located on slopes whose grade exceeds 25 percent (E or F slopes on soil maps);
 2. Buildings or structures and roads located on slope of 15 to 25 percent in grade (D slopes) require a plan showing the topography, building location, drives, sanitary facilities, foundation, drainage, planting schedule and grading plan prepared by an architect or landscape architect or engineer and a statement as to how problems of possible erosion, stream siltation, soil stabilization and revegetation are to be overcome.
 3. Building requiring on-lot sanitary facilities located on slopes of 8 percent or greater, require a detailed plan prepared by a qualified engineer or sanitarian indicating the location and design of special sanitary

facilities needed to overcome slope problems and a statement that no seepage or other unsanitary conditions will be caused to exist by such design.

308.4 Issuance of Zoning Permit

A Zoning Permit shall not be issued for a steep slope area development until the Municipal Engineer has certified that the conditions on the lot are as actually stated on the plan, and that the plan, as proposed, actually resolve the problems arising from the steep slope condition.

308.5 Recording of Permits

The Zoning Officer shall maintain a separate file for all Zoning Permits in areas subject to these regulations.

All judgments, costs and reasonable attorney fees collected for the violation of this Zoning Ordinance shall be paid over to the Township.

SECTION 407 Amendments

The provisions of this Ordinance and the boundaries of Zoning Districts, as set forth in the Official Zoning Map, may from time to time be amended, or changed by the Governing Body of the Municipality in accordance with the provisions of the Pennsylvania Municipalities Code, as amended.

407.1 Procedure (*See Ordinance No. 1-03 adopted November 11, 2003*)

The following procedures shall be observed prior to making any amendment or change to this ordinance or to the Official Zoning Map:

- a. Every such amendment not initiated by the Planning Commission shall be referred to the Planning Commission, at

least thirty (30) days prior to the Governing Body holding a public hearing, for a written report thereon.

- b. The Governing Body shall hold a public hearing thereon pursuant to public notice, before voting on the enactment of an amendment. Public notice of such hearing shall include a brief summary of the principal provisions in reasonable detail and a reference to where copies of the proposed amendment may be examined, in addition to the time and place of the hearing. If after any public hearing held upon an amendment, the proposed amendment is revised, or further revised, to include land previously not affected by it, the Governing Body shall hold another public hearing prior to voting on the amendment. The vote on the proposed amendment by the Governing Body shall be within ninety (90) days after the last public hearing.
- c. At least thirty (30) days prior to the Governing Body Public Hearing, the Governing Body shall submit the proposed Ordinance to the Berks County Planning Commission for recommendation.

If, however, the Planning Commission and the County Planning Commission fails to act within thirty (30) days, the Governing Body shall proceed without such recommendations.

- e. Before voting on the enactment of an amendment, the Governing Body shall hold a public hearing thereon, pursuant to public notice. In addition, if the proposed amendment involves a zoning map change, notice of said public hearing shall be conspicuously posted by the Municipality at points deemed sufficient by the Municipality along the perimeter of the tract to notify potentially interested citizens. The affected tract or area shall be posted at least one (1) week prior to the date of the hearing.

1. Procedure for Landowner Curative Amendments

- 1. A landowner who desires to challenge on substantive grounds the validity of the Zoning Ordinance or map or any provision thereof which prohibits or restricts the use or development of land in which he has an interest may submit a curative amendment to the Governing

Body with a written request that his challenge and proposed amendment be heard and decided as provided in Section 916.1 of the Pennsylvania Municipalities Planning Code, as amended. The Governing Body shall commence a hearing thereon within sixty (60) days of the request, as provided for in Section 916.1 of the Pennsylvania Municipalities Planning Code, as amended. The curative amendment and challenge shall be referred to the County and Township Planning Commissions as provided in Section 407.1 and notice of the hearing thereon shall be given as provided in Subsection 610 and in Section 916.1 of the Pennsylvania Municipalities Planning Code, as amended. The hearing shall be conducted in accordance with subsections (d) to (h) of Section 504.3 and all references therein to the Zoning Hearing Board shall, for purposes of this section, be references to the Governing Body.

2. The hearing shall be conducted in accordance with Section 908 of the Pennsylvania Municipalities Planning Code, as amended, and all references therein to the Zoning Hearing Board shall, for purpose of this section, be referenced to the Governing Body. If the Municipality does not accept a landowner's curative amendment brought in accordance with this subsection and a court subsequently rules that the challenge has merit, the court's decision shall not result in a declaration of invalidity for the entire Zoning Ordinance and Map, but only for those provisions which specifically relate to the landowner's curative amendment and challenge. **(amended by Ordinance No. 1-03)**
3. If the Governing Body determines that a validity challenge has merit, the Municipality may accept a landowner's curative amendment, with or without revisions, or may adopt an alternative amendment which will cure the challenged defects. The Governing Body shall consider the curative amendments, plans and explanatory material submitted by the landowner and shall also consider:
 - (a) the impact of the proposal upon roads, sewer facilities, water supplies, schools and other

public service facilities;

- (b) if the proposal is for residential use, the impact of the proposal upon regional housing needs and the effectiveness of the proposal in providing housing units of a type actually available to and affordable by classes of persons otherwise unlawfully excluded by the challenged provisions of this Ordinance and Map;
- (c) the suitability of the site for the intensity of use proposed by the site's soils, slopes, woodlands, wetlands, flood plains, aquifers, natural resources and other natural features;
- (d) the impact of the proposed use on the site's soils, slopes, woodlands, wetlands, flood plains, natural resources and natural features, the degree to which these are protected or destroyed, the tolerance of the resources to development and any adverse environmental impact; and
- (e) the impact of the proposal on the preservation of agriculture and other land uses which are essential to public health and welfare.

g. Procedure for Municipal Curative Amendments

If the Municipality determines that its Zoning Ordinance or any portion thereof is substantially invalid, it shall take the following actions:

- (1) The Municipality shall declare, by formal action, its zoning ordinance or portions thereof substantively invalid and propose to prepare a curative amendment to overcome such invalidity. Within thirty (30) days following such declaration and proposal, the Governing Body of the Municipality shall:
 - (a) By resolution make specific findings setting forth the declared invalidity of the zoning ordinance which may include: (i) references to specific uses which are either not permitted or not permitted in sufficient quantity, (ii) reference

to a class of use or uses which require revision, or (iii) reference to the entire ordinance which requires revisions.

- (b) Begin to prepare and consider a curative amendment to the Zoning Ordinance to correct the declared invalidity.
- (2) Within one hundred eighty (180) days from the date of the declaration and proposal, the Municipality shall enact a curative amendment to validate, or reaffirm the validity of, its Zoning Ordinance pursuant to the provisions required by Section 609 of the Pennsylvania Municipalities Planning Code, as amended, in order to cure the declared invalidity of the Zoning Ordinance.
- (3) Upon the initiation of the procedures, as set forth in clause (1), the Governing Body shall not be required to entertain or consider any landowner's curative amendment filed under Section 609.1.1f nor shall the Zoning Hearing Board be required to give a report requested under Section 909.1 or 916.1 of the Pennsylvania Municipalities Planning Code, as amended, subsequent to the declaration and proposal based upon the grounds identical to or substantially similar to those specified in the resolution required by clause (1)(a). Upon completion of the procedures as set forth in subsections (1) and (2), no rights to cure pursuant to the provisions of Section 609.1 and 916.1 of the Pennsylvania Municipalities Planning Code, as amended, shall, from the date of the declaration and proposal, accrue to any landowner on the basis of the substantive invalidity of the unamended Zoning Ordinance for which there has been a curative amendment pursuant to this section.
- (4) The Municipality having utilized the procedures as set forth in subsections (1) and (2) may not again utilize said procedure for a thirty-six (36) month period following the date of the enactment of a curative amendment, or reaffirmation of the validity of its Zoning Ordinance, pursuant to subsection (2); provided, however, if after the date of declaration and proposal there is a substantially new duty or obligation imposed upon the Municipality by virtue of

a change in statute or by virtue of a Pennsylvania Appellate Court decision, the Municipality may utilize the provisions of this section to prepare a curative amendment to its ordinance to fulfill said duty or obligation.

SECTION 408 Procedure to Obtain Preliminary Opinion

In order not to unreasonably delay the time when a landowner may secure assurance that the ordinance or map under which he proposed to build is free from challenge, and recognizing that the procedure for preliminary approval of his development may be too cumbersome or may be unavailable, the landowner may advance the date from which time for any challenge to the ordinance or map will run under Section 914.1 of the Pennsylvania Municipalities Planning Code, as amended, by the following procedures:

- a. The landowner may submit plans and other materials describing his proposed use or development to the Zoning Officer for preliminary opinion as to their compliance with the applicable ordinance and maps. Such plans and other materials shall not be required to meet the standards prescribed for preliminary, tentative or final approval or for the issuance of a building permit so long as they provide reasonable notice of the proposed use or development and a sufficient basis for a preliminary opinion as to its compliance.
- b. If the Zoning Officer's preliminary opinion is that the use or development complies with the ordinance or map, notice thereof shall be published once a week for two (2) successive weeks in a newspaper of general circulation in the Municipality. Such notice shall include a general description of the proposed use or development and its location, by some readily identifiable directive, and the place and time where the plans and other materials may be examined by the public. The favorable preliminary approval under Section 914.1 of the Pennsylvania Municipalities Planning Code, as amended, and the time therein specified for commencing a proceeding with the Board shall run from the time when the second notice thereof has been published.

SECTION 409 Publication, Advertisement and Availability of Ordinance

- a. Proposed amendments shall not be enacted unless notice of proposed enactment is given in the manner set forth in this section, and shall include the time and place of the meeting at which passage will be considered, a reference to a place within the Municipality where copies of the proposed amendment may be examined without charge or obtained for a charge not greater than the cost thereof. The Governing Body shall publish the

proposed amendment once in one (1) newspaper of general circulation in the Municipality not more than sixty (60) days nor less than seven (7) days prior to passage. Publication of the proposed amendment shall include either the full text or the title and a brief summary, prepared by the Municipality's Solicitor and setting forth all the provisions in reasonable detail. If the full text is not included:

- (1) A copy thereof shall be supplied to a newspaper of general circulation in the Municipality at the time the public notice is published.
- (2) An attested copy of the proposed ordinance shall be filed in the County law library or other County office designated by the County Commissioners, who may impose a fee no greater than that necessary to cover the actual costs of storing said ordinance.
- (b) In the event substantial amendments are made in the proposed amendment, before voting upon enactment, the Governing Body shall, at least ten (10) days prior to enactment, re-advertise, in one (1) newspaper of general circulation in the Municipality, a brief summary setting forth all provisions in reasonable detail together with a summary of the amendment.

SECTION 410 Conditional Uses (See Ordinance No. 2-01 adopted June 19, 2001 - new section added)

Where the Governing Body in this Zoning Ordinance has stated conditional uses to be granted or denied by the Governing Body pursuant to express standards and criteria, the Governing Body shall hold public hearing on and decide requests for such conditional uses in accordance with such standards and criteria. Their successors shall be appointed on the expiration of their respective terms to serve three years. Members of the Board shall hold no other office in the Municipality.

501.3 Removal

Any Board member may be removed for malfeasance, misfeasance or nonfeasance in office or for other just cause by a majority of the Governing Body which appointed the member, taken after the member has received fifteen (15) days' advance notice of the intent to take such a vote. A hearing shall be held, if the Board member requests one in writing.

501.4 Vacancies

Vacancies shall be filled by appointment by the Governing Body for the unexpired portion of term.

501.5 Compensation

The members of the Board shall receive such compensation as shall be fixed by the Governing Body, but in no case shall it exceed the rate of compensation authorized to be paid to the members of the Governing Body. Within the limit of funds appropriated by the Governing Body, the Board may employ or contract for secretaries, clerks, legal counsel, consultants and other technical and clerical

services.

501.6 Organization

The Board may promulgate such rules or procedure, not inconsistent with this Ordinance and the Pennsylvania Municipalities Planning Code, as amended, as it may deem necessary to the proper performance of its duties and to the proper exercise of its powers. Such rules shall be continued in force and effect, until amended or repealed by the Board.

501.7 Meetings

Meetings of the Board shall be held at the call of the chairman and at such other times as the Board, by majority vote, may determine.

501.8 Minutes and Records

The Board shall keep public stenographic records of its proceedings showing the vote of each member upon each question or, if absent or failing to vote, indicating such fact. The Board shall keep full public records of its examination and other official action, copies of which shall be immediately filed with the Secretary of the Governing Body and shall be the property of the Municipality. The Board shall submit a report of its activities as requested by the Governing Body.

SECTION 502 Zoning Hearing Board — Powers and Duties

The Zoning Hearing Board shall have exclusive jurisdiction to hear and render final adjudication in the following matters:

502.1 Appeals and Challenges

- a. Substantive challenges to the validity of any land use ordinance, except those brought before the Governing Body pursuant to Section 609.1 and 916.1(a)(2) of the Pennsylvania Municipalities Planning Code, as amended.
- b. Challenges to the validity of a land use ordinance procedural questions or alleged defects in the process of enactment or adoption which challenges shall be raised by an appeal taken within thirty (30) days after the effective date of said ordinance.
- c. Appeals from the determination of the Zoning Officer, including, but not limited to, the granting or denial of any

permit, or failure to act on the application thereof, the issuance of any cease and desist order.

- d. Appeals from a determination by the Municipal Engineer or the Zoning Officer with reference to the administration of any flood plain or flood hazard ordinances or such provisions within a land use ordinance.
- e. Appeals from the Zoning Officer's determination under Section 408.
- f. Appeals from the determination of the Zoning Officer or Municipal Engineer in the administration of any land use ordinance or provision thereof with reference to sedimentation and erosion control and storm water management insofar as the same relate to development not involving subdivision and land development.
- 9. Application for variance from the terms of this Ordinance and flood hazard ordinance or such provisions within a land use ordinance, pursuant to Section 502.2.
- h. Application for special exception under this Ordinance or flood plain or flood hazard ordinances or such provisions within a land use ordinance, pursuant to Section 502.3.

502.2 Variance

The Board shall hear requests for variances where it is alleged that the provisions of the Zoning Ordinance inflict unnecessary hardship upon the applicant. The Board may, by rule, prescribe the form of application and shall require preliminary application to the Zoning Officer. The Board may grant a variance, provided that all of the following findings are made where relevant in a given case:

- a. That there are unique physical circumstances, including, irregularity, narrowness, or shallowness of lot size, of shape, or exceptional topographical or other physical conditions peculiar to the particular property, and that the unnecessary hardship is due to such conditions, and not circumstances or conditions generally created by the provisions of the Zoning Ordinance in the neighborhood or district in which the property is located;
- b. That because of such physical circumstances or conditions, there is no possibility that the property can be developed in

strict conformity with the provisions of the Zoning Ordinance and that the authorization of a variance is therefore necessary to enable the reasonable use of the property;

- c. That said special circumstances or conditions have not resulted from any act of the applicant subsequent to the adoption of this Ordinance, whether in violation of the provisions hereof or not, and that such circumstances or conditions are such that strict application of the provisions of this Ordinance would deprive the applicant of the reasonable use of such land, structure, or building;
- d. That the granting of the variance, under such conditions as the Board may deem necessary or desirable, will be in harmony with the general purpose and intent of this Ordinance, and will not be injurious to the neighborhood or otherwise detrimental to the public welfare, and will not alter the essential character of the neighborhood district in which the property is located;
- e. That any variance granted shall be subject to such conditions as will assure that the adjustment thereby authorized shall not constitute a grant of special privilege inconsistent with the limitations upon other properties in the vicinity and district in which the subject property is situated, nor substantially or permanently impair the appropriate use or development of adjacent property;
- f. That no nonconforming use of neighboring lands, structures, or buildings in the same district, and no permitted or nonconforming use of land, structures, or buildings in other districts shall be considered grounds for the granting of a variance;
- 9. That in no case shall a variance be granted solely for reasons of additional financial gain on the part of the applicant;
- h. That the jurisdiction of the Governing Body shall not be infringed upon by action of the Board in any matter which should appropriately be the subject for an amendment to the Zoning Ordinance or Zoning Map. No variance shall be granted under this Section to allow a structure or use in a zone restricted against such structure or use.

The variance, if authorized, will represent the minimum

variance that will afford relief and will represent the least modification possible of the regulations in issue.

In granting any variance, the Board may attach such reasonable conditions and safeguards as it may deem necessary to implement the purpose of the Pennsylvania Municipalities Planning Code, as amended, and this Ordinance.

502.3 Special Exceptions

To hear and decide only such special exceptions to the terms of this Ordinance upon which the Board is specifically authorized to pass upon by the terms of this Ordinance. The granting of a special exception, when specifically authorized by the terms of the Ordinance, shall be subject to the following conditions and guiding principles:

- a. Such use shall be one which is specifically authorized as a Special Exception Use in said district.
- b. Such permits shall only be granted subject to any applicable condition and safeguards as required by this Ordinance.
- c. Such permit may be granted subject to additional reasonable conditions and safeguards as may be deemed by the Board to be advisable and appropriate.
- d. Such use shall be found by the Board to be in harmony with the general purposes and intent of this Ordinance.
- e. Such use either by location, design or operation shall not adversely affect the character of the District, nor the conservation of property values, nor the health and safety of residents or workers on adjacent properties and in the general neighborhood.
- f. Such use shall be such appropriate size and so located and laid out in relation to its access streets that vehicular and pedestrian traffic to and from such use will not create undue congestion or hazards prejudicial to the general neighborhood.
- g. Such use shall not conflict with the direction of building development in accordance with any Comprehensive Plan or portion thereof which has been adopted by the Planning

Commission.

Common open space shall be land usable for either active or passive recreation or for agricultural use.

Common open space areas used for recreation will be suitably landscaped either by retaining existing natural cover and wooded areas or by a comprehensive landscape plan for improving open space areas through planting and other means in such a way that future maintenance costs are minimized

The location, shape, topography and size of the common open space area shall be subject to approval by the Board and such land shall be in an acceptable condition before any building permit is issued in the subdivision or in lieu of such condition a bond for any improvements to the common open space shall be furnished by the applicant.

4. Nothing herein shall require the Municipality to accept dedication of common open space land. However, any property or portion of property accepted by the Municipality shall be retained for public use. Common open space shall be deed restricted to prevent any

further subdivision and restrict the uses to those set forth herein.

- c. All lot width and yard requirements normally applicable to the tract of land may be reduced fifty (50) percent subject to the approval of the Board, provided that:
 - 1. Yards adjacent to adjoining properties (including across a street or right-of-way) shall meet all minimum yard requirements of the appropriate zoning district, except when adjacent tracts have previously been development under this clustering provision.

503.9 Single-Family Development within the Rural-Agricultural District

In the R-A Zoning District, the Zoning Hearing Board may authorize single-family development subject to the following requirements:

- a. Except as permitted for single-family dwelling purposes, pursuant to this Section of the Ordinance, or for Permitted and Special Exception uses established in Section 201.1 and 201.3 of this Ordinance, subdivision of land within the R-A District shall be limited to the division of land for agricultural purposes of parcels of ten (10) or more acres or to the creation of a parcel less than ten (10) acres for the purpose of transferring the parcel to an adjacent property owner; provided, however, that at least ten (10) acres shall be maintained in the original tract.
- b. Tracts of land existing at the adoption of this amendment to the Zoning Ordinance shall be limited, subject to Zoning Hearing Board approval, to the following maximum number of additional single-family detached dwellings:

<u>Size of Tract of Land</u>	<u>Maximum Number of Single-Family Dwellings</u>
0-19 acres	1
20-49 acres	2
50-99 acres	3
100-199 acres	4
200-349 acres	5
350-499 acres	6
Over 500 acres	One additional dwelling for every 200 acres

NOTE:

Fractions or parts of acres shall not be considered in determination of the maximum number of dwellings provided for in this section. A property owner submitting a subdivision plan shall be required to specify on the Plan which parcel shall carry with it the right to the quota or unused quota of additional single-family dwellings.

- c. All single-family dwellings existing or approved prior to the adoption of this amendment to the Zoning Ordinance shall be permitted in addition to the above permitted number of dwellings.
- d. New single-family detached dwellings shall be located on soils other than soils identified as Soil Capability Units I, II and III by the Soil Conservation Service in the Soil Survey of Berks County, or on land which cannot feasibly be used for agricultural purposes due to the land characteristics, slope, or size and/or shape of property. Where, in the opinion of the Zoning Hearing Board, location on soils other than Soil Capability Units I, II and III is not feasible, the Board shall permit the location of dwellings on such soils; however, the location shall be on the least agriculturally productive land feasible or such other area that would minimize interference with agricultural production.
- e. Any person who shall claim that the classification of soils on his land is incorrect because the Soil Survey is inaccurate in regard to his property, may appeal the classification to the Zoning Hearing Board. The burden of proof shall be on the appellant to the Zoning Hearing Board. The appellant must submit, as part of his appeal before the Zoning Hearing Board, an analysis prepared by a professional engineer or certified geologist or soil scientist indicating soil types based on field investigation and tests. The Zoning Hearing Board may, upon review of the submitted report, reclassify the property in question in accordance with the findings submitted for the purpose of this Ordinance.
- f. The lot size for all new single-family dwellings, as permitted under this Section, shall be not less than one (1) acre nor more than one and two-tenths (1.2) acres. Larger lots may be permitted if the owner can substantiate that increases in the size of the property will not adversely affect the objectives of this Section or that the physical or soil characteristics require larger lot sizes in order to locate the dwelling, accessory structures, driveway, well and/or on-site

sewage disposal facilities.

The minimum/maximum requirements shall be as follows:

<u>Minimum</u>		<u>Maximum</u>	
Front Yard	- 50 feet	Building Coverage	-20%
Rear Yard	- 50 feet	Building Height (feet)	- 35
Each Side Yard	- 20 feet	(stories)	- 2-1/2
Lot Width	-100 feet		

- g. Lots for the location of single-family detached dwellings, in addition to those authorized by subparagraph (b), may be permitted provided that the dwellings proposed are located on lots which consist of low quality agricultural land. Land shall be considered low quality if:
1. The land is in Soil Capability Units IV through VIII as classified by the Soil Conservation Service, or
 2. The land cannot be feasibly used for agriculture:
 - a. Due to the existing features of the site, such as rock formation which does not permit plowing, swamps, heavily wooded areas, or slopes exceeding fifteen (15) percent;
 - b. Due to the size or shape of the tract, the tract of land is unsuitable for farming and the efficient use of farm machinery.
- Such additional lots must meet all of the requirements of this Ordinance (Section 201.4, 201.5 and 201.6).
3. Any person who claims that his land cannot feasibly be used for agriculture under Section 503.9(g)(1) and (2) may appeal to the Zoning Hearing Board. The burden of proof shall be on the person appealing to the Zoning Hearing Board.
- h. All plans for the subdivision or land development as may be authorized pursuant to this Section shall also be deemed to be governed by the provisions, requirements and procedures of the Municipality's Subdivision and Land Development Ordinance and said Ordinance shall be followed for all plan approvals.

503.10 Mobile Telephone, Microwave, Television and Radio Transmission Structures

- a. Such use shall be permitted in the Highway Commercial District (C-1) and/or the industrial (I-1) districts, provided that such towers and/or antenna structures shall not be located within two hundred (200) feet, or the total height of the tower and/or antenna structure, whichever is less, from any existing building or accessory building or street.
- b. In addition to the minimum lot sizes required in the C-1 zoning district and the I-1 zoning district, a safety easement setback shall be required providing a radius not to be less than the total height of the tower and /or antenna structure, and further providing that no future structure may be constructed within said safety easement setback.
- c. The maximum height of the particular structures shall not exceed two hundred (200) feet in total height above ground.
- d. Applicant shall be required to fence the perimeter of the site on which the transmission tower and communications equipment building is located. Fencing shall be in accordance with applicable Township Ordinances. In addition, the applicant shall be required to landscape and screen the tower base and equipment building and to have appropriate lighting on site to prevent nighttime trespassing.
- e. Applicant, for a special exception under this provision, shall agree to submit to the Township Zoning Officer a quarterly report setting forth the status of use of the transmission tower and/or communications equipment building. Applicant shall be required to dismantle and remove the tower within six (6) months of the date on which the use of the tower has ceased and/or been abandoned. Any period of time in excess of two (2) months in which the transmission tower is not used for the transmission and/or receiving of radio waves shall be deemed an abandonment of said use.
- f. All other provisions of this Ordinance shall be complied with, including, but not limited to, applicable FCC and FAA regulations.
- g. Applicant, for a special exception under this provision, shall demonstrate that the requested location is the optimum location for the location of a tower and that no alternative sites are available in the Township. The applicant shall demonstrate that alternative sites were studied and the applicant sought permission to locate on

existing towers or structures in the Township.

- h. The Zoning Hearing Board may place other restrictions and requirements on proposed tower and/or antenna uses as the Board deems necessary for the protection of the general health, safety and welfare of the public.

SECTION 504 Procedures for Application to the Zoning Hearing Board

The Board shall act in strict accordance with the procedure specified by Articles IX and X of the Pennsylvania Municipal Planning Code, as amended.

Applications and appeals, together with the required filing fee as established by the Governing Body, shall be submitted to the Secretary of the Zoning Hearing Board. All appeals and applications made to the Board shall be in writing on forms prescribed by the Board. Every appeal or application shall refer to the specific provision of the Ordinance involved and shall exactly set forth the interpretation that is claimed, the grounds for any challenges to the validity of the Ordinance, the use for which a special permit is sought, or the details of the variance that is applied for and the ground on which it is claimed that the variance should be granted, as the case may be.

504.1 Parties Appellant before the Zoning Hearing Board

Appeals under Section 502.1(a), (b), (c), (d), (e) and (f) may be filed with the Board, in writing, by an officer or agency of the Municipality, or any person aggrieved. If such person has succeeded to his interest after such approval, he shall be bound by the knowledge of his predecessor in interest.

- b. No person shall be allowed to file any proceeding with the Board later than thirty (30) days after any application for development, preliminary or final, has been approved by an appropriate officer of the Municipality, agency or body if such proceeding is designed to secure reversal or to limit the approval in any manner unless such person alleges and proves that he has no notice, knowledge or reason to believe that such approval had been given. If such person has succeeded to his interest after such approval, he shall be bound by the knowledge of his predecessor in interest.

The failure of anyone other than the landowner to appeal from an adverse decision on a tentative plan pursuant to Section 709 of the Pennsylvania Municipalities Planning Code, as amended, or from an adverse decision by the Zoning Officer on a challenge to the validity of an ordinance or a map pursuant to Section 916.2 of the Pennsylvania Municipalities Planning Code, as amended, shall preclude an appeal from a final approval except in the case where the final submission substantially deviates from the approved tentative approval.

All appeals from determinations adverse to the landowner shall be filed by the landowner within thirty (30) days after notice of the determination is issued.

Said notice shall be sent out by the Secretary of the Zoning Hearing Board or his assignee. Written notice shall be given at such time and in such manner as shall be prescribed by rules of the Board. In addition to the written notice provided for herein, notice of said hearing shall be conspicuously posted on the affected tract of land at least one (1) week prior to the hearing. Hearings shall be held within sixty (60) days from the date of the applicant's request, unless the applicant has agreed, in writing, to an extension of time. **(amended by Ordinance No. 1-03)**

- b. The hearings shall be conducted by the Board or the Board may appoint any member as a hearing officer. The decision, or where no decision is called for, the findings shall be made by the Board; however, the appellant or the applicant, as the case may be, in addition to the Municipality, may, prior to the decision of the hearing, waive decision or findings by the Board and accept the decision or findings of the hearing officer as final.

WHEREAS, the Perry Township Board of Supervisors ("Supervisors") adopted Ordinance No. 3-05 on September 6, 2005, creating a new Commercial Light Industrial District under a new Section 209 of the Zoning Ordinance of Perry Township hereinafter referred to as the CLI District; and

WHEREAS, the Supervisors believe it is necessary to enact certain changes to the CLI Zoning District for health, safety and welfare concerns of existing residential uses and zoning district boundaries regarding building setbacks, improvement setbacks, noise limits, miscellaneous disturbances, lighting and buffering; and

WHEREAS, the Supervisors recognize the increasing change in public energy consumption and the need to provide for residential and commercial wind energy uses such as windmills and wind energy facilities and that such uses are best regulated through conditional use applications.

NOW, THEREFORE, BE IT ENACTED AND ORDAINED, and it is hereby ordained and enacted by the Township of Perry, Berks County, Commonwealth of

Pennsylvania, as follows:

Section 1. Section 209.4 is hereby amended to read as follows:

Maximum Permitted:

Building Height	- 50 feet
Maximum Building Coverage	- 50%
Paved Area	- 50%
Total of Building and Paved Area Not to Exceed	- 80%

Minimum Requirements:

Lot Size — with public sewer	- 1 acre
Lot Size — without public sewer	- 2 acres
Lot Width:	
At Street Line	-150 feet
At Building Setback Line	-150 feet
Building Setbacks shall be a minimum of:	
Front Yard	- 35 feet
Side Yard	- 20 feet

The lateral extent of the application of this provision along a boundary line shall be at the discretion of the Board of Supervisors. This provision shall only be applied to the perimeter of the proposed development and is not to be applied on separate created lots or streets within a development within the CLI District.

The Board of Supervisors may, upon application by the Developer, reduce the Building Setback requirements upon a showing of increased landscaping mounds, screening and buffering that is determined to be acceptable and minimize the visual and noise related impacts upon a residential use or residential district.

For improvement Setbacks for driveways, parking areas, equipment pads, sound barriers and other structures not considered as landscaping structures such as retaining walls, there shall be a fifteen (15) foot minimum Improvement Setback. This minimum shall be doubled when the yard is adjacent to an existing residential use or residential district. Entrance driveways to developments larger than one (1) acre shall be separated a minimum of fifty (50) feet from the

adjacent property line unless it is adjacent to an existing residential use or district, at which time the separation shall be a minimum of one hundred (100) feet. The Board of Supervisors may, at their discretion, reduce the amount of the driveway separation upon a showing by the developer that there are intersection design restrictions on existing roads or such driveway separation is not consistent with a Master Traffic Plan."

A general Landscape Plan shall be required by each developer for a proposed new development or change of use. 410.4 Subdivision and Creation of Lots within the Rural-Agricultural District

In the R-A Zoning District, the subdivision of land or the creation of lots shall be completed by conditional use subject to the following requirements:

- a. Subdivision and creation of lots within the R-A District shall be by conditional use only and pursuant to the terms of this Section. Tracts of land existing as of January 19, 1986, which was the effective date of the sliding scale provisions adopted shall be limited, subject to conditional use approval, to the following maximum number of lots:

<u>Size of Tract of Land</u>	<u>Number of Additional Lots Permitted</u>
0-19 acres	1
20-49 acres	2
50-99 acres	3
100-199 acres	4
200-349 acres	5
350-499 acres	6
Over 500 acres	One additional lot for every 200 acres

NOTE: Fractions or parts of acres shall not be considered in determination of the maximum number of additional lots provided for in this section. A property owner submitting a subdivision plan shall be required to specify on the Plan which parcel shall carry with it the right to the quota or unused quota of additional lots to be created from the original tract. The number of new lots permitted by this Section 410.4 a. shall not be affected by any change in land ownership.

- b. All lots existing or approved prior to January 19, 1986 shall be permitted in addition to the above permitted number of lots.
- c. All plans for the subdivision or land development as may be authorized pursuant to this Section shall also be deemed to be governed by the provisions, requirements and procedures of the Municipality's Subdivision and Land Development Ordinance and said Ordinance shall be followed for all plan approvals.
- d. Where, in the opinion of the Board of Supervisors in a conditional use hearing, a single-family dwelling is to be located upon land that is presently farmed or can be farmed, the Board of Supervisors shall consider and render a decision in which the land owner is required to preserve the actual farming characteristics of the land or

the potential farming characteristics of the land consistent with accepted active farming and agricultural land management principals. Locations of single family residential homes shall be such that they shall be on the least agriculturally productive land feasible or such other area that would minimize interference with agricultural production.

- e. The maximum lot area for a lot to be approved and used as a residential lot shall not exceed a maximum of two (2) acres. The minimum lot size for all new lots, as permitted under this Section, shall not be less than one (1) acre. The Board of Supervisors in the conditional use proceedings shall consider unusual topographic conditions, wetlands, streams, rock outcrops, steep slopes or any other natural features that lend themselves to the lot size and the lot shape as proposed by a land owner. For a residential lot approval, the house shall be located on the least productive soils and applicant must demonstrate that that the proposed location of the house is not in prime agricultural soils, that the proposed house location does not affect the continuation of agricultural use on the parcel, and is designed in such a way as to prevent the irreversible conversion of agricultural land to non-productive uses. The placement of homes shall be designed and arranged to minimize both the loss of tillable agricultural soils and the interference with farm operations.

In the conditional use proceeding seeking approval of a lot for residential purposes, the Board of Supervisors may consider that the location of the proposed house and any accessory structures shall be set to provide the least disruption to the current or potential farming practices considering the field layout, contour strips, soil conditions, slope, and field acreage for both crop farming and pasture grazing. The proposed lot and shape may be dependent upon finding suitable soils for on lot septic system, and may also be dependent upon certain requirements for meeting ground water conditions resulting from any hydrogeologic study for the lot. The Board of Supervisors may require proof of unsuitable soils for the location of a septic system if the applicant is proposing a lot size that consumes available farm land.

The Board of Supervisors shall grant a conditional use application subject to some or all of the following criteria based upon the location and site specific merits of the proposed application:

1. A site plan shall be required for each individual lot, prepared at the time of the conditional use application. If the application is seeking approval for a residential lot, the site

plan shall show the intended location and footprint of the house to be constructed. The house plan shall show general overall dimensions.

2. No signs other than signs giving the name of the occupants or the name of the home-related business may be erected if the purpose is to have a business under any provision of the Perry Township Zoning Ordinance. Any sign shall not exceed two (2) square feet.
3. Any part of an unforested lot not used for the residence, outbuildings, lawn, support utilities or driveway shall be used or available for agriculture.
4. Unimproved lots shall remain in active agriculture use or shall be mowed in accordance with the Perry Township Weed Control Ordinance.
5. No structure of temporary character, such as trailers, mobile homes, tents, campers or recreational vehicles may be erected on the lot and used as a place of residence.

Any storage of materials or supplies on a lot for residential purposes that may be used for a home occupation or home-based business shall be hidden by fencing or natural tree cover.

The design and construction of driveways on all lots shall be approved by the Township Engineer and shall include sufficient control measures and facilities to slow, minimize, divert, and safely convey surface runoff and to prohibit the discharge of sediment and/or gravel wash onto public roads or the public road drainage facilities and right of way. Certain portions or all of the proposed driveway may be required to be paved.

8. Selection of the site for any structure shall be in keeping with the goal of preservation of agricultural land and shall be assessed by the Board of Supervisors as part of the conditional use review.
9. All accessory structures shall be located behind the front plane of the principal residential structure.
10. As a condition of granting a conditional use, the Board of Supervisors may require that there may be no further

subdivision, no creation of additional lots, or may require the relinquishment of some or all of the remaining lots that an applicant may be entitled to by the sliding scale quota of this section.

fit. imposition of conditions and reasonable safeguards deemed to be appropriate to the specific plan being considered by the Board.

in the event that a lot is created by a landowner for purposes of annexing the newly created lot onto adjoining lands, the annexation parcel so created shall not be considered as land available to the parcel to which it is to be annexed for calculating the quota of available lots pursuant to 410.4.a. herein.

Prior to the conditional use hearing, the applicant shall submit a site plan to the Planning Commission to provide an opportunity to review the proposed subdivision or creation of lots to allow the Planning Commission to provide comments and recommendations to the Board of Supervisors. Said submission shall take place more than thirty (30) days prior to the conditional use hearing.

Section 3. Existing Section 503.9 is repealed in its entirety.

Section 4. Subsection 304.4.B. entitled "Billboards" shall be amended to read

as follows:

Billboards are a permitted accessory use in the C-1, C-2, CLI, 1-1 and L-1 zoning districts only, and are specifically limited to locations along Route 61 (Pottsville Pike) corridor only.

Section 5. All ordinances or parts of ordinances inconsistent with the provisions of this Ordinance are hereby repealed insofar, but only insofar, as the same are inconsistent herewith.

Section 6. If any sentence, clause, section or part of this Ordinance is for any reason found to be unconstitutional, illegal or invalid, such unconstitutionality, illegality or invalidity shall not affect nor impair any of the remaining provisions, sentences, clauses, sections or parts of this Ordinance. It is hereby declared to be the intent of the

Board of Supervisors of the Township of Perry that this Ordinance would have been adopted had such unconstitutional, illegal or invalid sentence, clause, section or part not been included herein.

Section 7. This Ordinance shall become effective fifteen (15) days after its adoption and enactment as required by law.

DULY ENACTED AND ORDAINED by the Board of Supervisors of Perry Township, Berks County, Pennsylvania, this 14th day of January, 2014, in lawful session duly assembled.

ORDINANCE NO. 12 - 22

**AN ORDINANCE AMENDING THE ZONING ORDINANCE OF
PERRY TOWNSHIP TO ADD A NEW SECTION 313 TO ALLOW
FOR AND REGULATE SOLAR ENERGY SYSTEMS AND
FACILITIES, AND TO PROVIDE FOR DEFINITIONS RELATED
THERETO.**

WHEREAS, the Board of Supervisors of Perry Township, Berks County Pennsylvania deems it necessary and appropriate to amend the Perry Township Zoning Ordinance (the "Zoning Ordinance") to allow for Solar Energy Systems and Facilities and to adopt regulations which promote the health, safety, and welfare of the residents of Perry Township regarding the location and operation of said facilities.

NOW, THEREFORE, be and it is hereby resolved by the Board of Supervisors of Perry Township, Berks County, Pennsylvania, as follows:

SECTION I: Solar Energy Systems and Facilities

A. A new Section 313 entitled "Solar Energy Systems and Facilities" shall be created and amended to the Zoning Ordinance of Perry Township.

B. The text of Section 313 is set forth herein as follows:

SECTION 313: Solar Energy Systems and Facilities

SECTION 313.1: Definitions: The following terms shall have the following definitions for purposes of this Section:

Accessory Solar Energy Systems (ASES): An alternative energy system consisting of one or more ground mounted, principal building mounted, or accessory building mounted solar collection devices and solar energy related equipment to generate electricity or otherwise convert solar energy into a different form of energy for the primary purpose of reducing on-site consumption of purchased power.

Principal Solar Energy Systems (PSES): An alternative energy system consisting of ground mounted or roof mounted solar collection devices and solar energy related equipment to generate electricity or otherwise convert solar energy into a different form of energy for the primary purpose of using the energy for commercial or other off-site use.

Solar Related Equipment: Items including a solar photovoltaic cell, module, panel, or array, or solar hot air or water collector device panels, lines, pumps, batteries, mounting brackets, framing and possibly foundations or other structures used for or intended to be used for or intended to be used for collection of solar energy.

SECTION 313.2: Accessory Solar Energy Systems (ASES)

- A. The placement of all features, solar related equipment and system components constituting the ASES shall comply with the principal building setback, height, lot coverage, and other bulk requirements of the applicable underlying zoning district.
- B. ASES roof mounted systems shall not extend beyond the roof edge in any direction nor above the ridge line of any sloped roof to which the system is attached.
- C. ASES ground mounted systems shall not exceed ten (10) feet in height. Any roof mounted system shall not exceed the maximum building height in that zoning district.
- D. The maximum permitted area, which is the combined surface area of all individual solar panels constituting the ASES, shall not exceed one thousand (1,000) square feet.
- E. All utilities, lines, cables, wires, and other connections of, to or from the ASES and any related structure shall be at or below grade, or for roof mounted facilities shall comply with Section 313.2.C above.
- F. The ASES shall be installed in compliance with all applicable building and construction code requirements.
- G. ASES ground mounted systems shall be deemed impervious cover requiring stormwater management design pursuant to the Perry Township Stormwater Management Ordinance. The landowner must maintain the stormwater management feature(s) in good working order so long as the system is installed.
- H. The actual surface area of all individual panels shall be considered in determining the amount of additional lot coverage the system creates. Actual surface area does not include projected horizontal area.
- I. If required by the Code Official, the applicant shall supply one (1) years' worth of electrical consumption records for the subject property to serve as a benchmark for the anticipated amount of electrical energy proposed to be generated.
- J. ASES shall be a use permitted by right in all zoning districts within the Township, provided they meet all regulations set forth herein.

- K. The design, installation, and operation of ASES shall comply with all applicable federal, state, and local laws and regulations, including but not limited to building, construction, fire, and life safety requirements, and conform to the applicable industry standards, including those of the American National Standard (ANSI), Underwriters Laboratories (UL), the American Society for testing and Materials (ASTM), and other similar certifying organizations.

SECTION 313.3: Principal Solar Energy Systems (PSES):

- A. PSES are permitted by Conditional Use within the L-I, I-1, and CLI Zoning Districts. All PSES are subject to the following conditions
- B. The minimum lot size for any PSES shall be ten (10) acres.
- C. PSES shall be enclosed by perimeter fencing at a height of eight (8) feet to restrict unauthorized access. Fencing shall be permitted within the front, rear, and side yards of a lot and shall be set back a minimum of fifteen (15) feet from all property lines.
- D. All electrical lines shall, to the maximum extent practicable, be placed underground. All roof mounted PSES shall not exceed maximum building height in the applicable zoning district and all electric lines shall be concealed from view as is reasonably able to be accomplished.
- E. PSES shall be screened from the property line view of:
1. Any residential structures on an adjacent lot existing at the time the PSES is established and located within three hundred (300) feet of the nearest solar array of the PSES; and
 2. Any pedestrian or vehicular traffic on any street directly adjacent to the PSES; and
 3. Screening may be adjusted by the Board of Supervisors as part of the Conditional Use findings.
- F. PSES shall adhere to all yard dimension, impervious coverage, and building coverage requirements of the district in which they are located. Regardless of the zoning district where the solar farm is located, the maximum height for any PSES shall be fifteen (15) feet from the average grade of the land below. For the purpose of administering this impervious coverage regulation, the area of the individual solar panels shall be calculated and interpreted as impervious area.
- G. In the event a building is necessary for the project it shall meet all the building setback, height, and coverage requirements of the zoning district in which it is located. With respect to lot or building coverage, the maximum allowable areas shall include both building and panel areas as described elsewhere within this

zoning section.

- H. Vegetated cover must be maintained ninety percent (90%) or better uniform coverage and must not be subject to chemical fertilization and herbicides/pesticides. A meadow condition is preferable, particularly for slope between five and ten percent (5-10%). Mowed areas, where approvable, should be kept to a maximum height of four inches (4").
- I. Individual panels within an array must be arranged in a fashion that allows the passage of runoff between each module.
- J. PSES must be supported with structures/foundations occupying a maximum of five percent (5%) of the total tract area.
- K. It shall be the responsibility of the property owner or facility owner or operator to secure any easements or restrictive covenants necessary to protect the sky space affecting the PSES. Such an agreement shall be negotiated between owners of affected properties but is not a requirement for any Township permits or approvals for the PSES.
- L. The Board of Supervisors shall, at a minimum, consider the following criteria for each application as part of the conditional use application:
 - 1. The applicant's plan for ongoing property maintenance, as well as maintenance of the solar generating and electrical aspects of the project.
 - 2. Any inclusion of animals or livestock for grazing and their potential impacts to the property and surrounding area.
 - 3. Property access including driveway location, required traffic controls, line of sight and potential impacts to the clear sight requirements.
 - 4. Parking for routine operation, maintenance (landscaping and solar energy generating improvements) and heavy vehicle access as needed to support facility operations.
 - 5. The potential for glare and heat generation and the impact they may cause to surrounding properties.
 - 6. Environmental impacts associated with Solar Related Equipment, including any batteries and energy storage associated with the facility.
 - 7. Whether the applicant has entered into an interconnection agreement with any third party.
- M. The applicant, or solar energy producer, shall agree to provide the Township

with an annual report documenting, at a minimum, the following:

1. Age of solar generating facility and the panels contained therein, with an anticipated remaining lifespan.
2. Maximum amount of energy which could have been generated within the last year.
3. Amount of energy produced by the solar energy production facility with monthly breakdown.
4. Operating costs of solar energy facility as available.
5. Overall facility efficiency over the previous twelve (12) month period.
6. Anticipated property and facility upgrades, if any, over the next twelve (12) month period.

SECTION 313.4 Discontinued Use/Decommissioning:

A. Accessory Solar Energy Systems (ASES):

1. Each ASES and all Solar Related Equipment shall be removed within twelve (12) months of the date when the use has been discontinued or abandoned by system owner and/or operator, or upon termination of the useful life of same.
2. The ASES shall be presumed to be discontinued or abandoned if no electricity is generated by such solar collector for a period of twelve (12) continuous months.
3. The ASES owner shall, at the request of the Township, provide information concerning the amount of energy generated by the ASES in the last 12 months.

B. Principal Solar Energy Systems (PSES):

1. The PSES owner or operator shall, at its expense, complete decommissioning of the PSES within six (6) months after the end of the useful life of the facility. The PSES will be presumed to be at the end of its useful life if no electricity is generated for a continuous period of twelve (12) months. Decommissioning shall include removal of solar arrays, support equipment, buildings, electrical components and lines, roads, foundations, and any other associated facilities. Disturbed earth shall be graded and reseeded unless the landowner requests in writing and the supervisors approve that the access roads or other land surface

areas not be restored.

2. An estimate for the total cost of decommissioning (Decommissioning Costs) without regard to salvage value of the equipment, and the cost of decommissioning net salvage value of the equipment (Net Decommissioning Costs) shall be submitted to the Township for review and approval at the time of building permit application, then after the first year of operation and every fifth year thereafter. The facility owner or operator shall post and maintain Decommissioning Funds in an amount equal to Net Decommissioning Costs; provided, that at no point shall Decommissioning Funds be less than twenty-five percent (25%) of Decommissioning Costs. The Decommissioning Funds shall be posted and maintained with a bonding company or Federal or Commonwealth chartered lending institution chosen by the facility owner or operator and participating landowner posting the financial security, provided that the bonding company or lending institution is authorized to conduct such business within the Commonwealth and is approved by the Township. Decommissioning Funds may be in the form of a performance bond, surety bond, letter of credit, or other form of financial assurance ("Financial Security") as may be acceptable to the Township in its sole discretion. If the facility owner or operator fails to complete decommissioning within the required period, then the landowner shall within six (6) months complete decommissioning.
3. If neither the facility owner or operator, nor the landowner complete decommissioning within the required periods, then the Township may take such measures as necessary to complete decommissioning. The entry into and submission of evidence of a landowner agreement to the Township shall constitute agreement and consent of the parties to the agreement, and their respective heirs, successors, and assigns, that the Township may take such action as necessary to implement the decommissioning plan. To the extent the Township incurs costs to rightfully perform any act in furtherance of decommissioning, it shall submit documentation of such costs to the facility owner or operator, and the Township shall be permitted to recover such costs from the Financial Security. Any remaining Decommissioning Funds shall be released to the facility owner or operator when the facility owner or operator has demonstrated and the Township concurs that decommissioning has been satisfactorily completed, or upon written approval of the Township in order to implement the decommissioning plan.
4. Requirements associated with the PSES Decommissioning Process;

- (a) Decommissioning shall include removal of all panels, Solar Related Equipment, buildings, cabling, electrical components, foundations, and any other associated features, facilities, or related components in their entirety whether above, equal to or below ground. Stormwater facilities and healthy landscaping shall remain undisturbed;
- (b) Disturbed earth shall be graded and re-seeded unless the landowner requests in writing that the access roads or other land surface areas not be restored; and
- (c) Decommissioning shall be considered complete only after the Township receives, and approves, a letter certifying the satisfactory decommissioning of the PSES site by an independent, certified professional engineering licensed to practice in the Commonwealth of Pennsylvania.

SECTION II: Severability

In the event that any provision, section, sentence, clause, or part of this Ordinance is held to be invalid, such invalidity shall not affect or impair any remaining provisions, section, sentence, clause or part of the Ordinance, it being the intent of the Board of Supervisors of Perry Township that such remainder shall be and shall remain in full force and effect and for this purpose the provisions of this Ordinance are hereby declared to be severable.

SECTION III: Repealer

The Ordinances of Perry Township, Berks County, Pennsylvania, shall be and remain unchanged and in full force and effect except as amended, supplemented, or modified by this Ordinance. All ordinances or parts of ordinances of the Township which are inconsistent herewith are hereby repealed.

SECTION IV: Effective Date

This Ordinance shall become effective immediately upon adoption by the Township of Perry.

DULY ENACTED AND ORDAINED this 13th day of December 2022, by the Board of Supervisors of Perry Township in public session duly assembled.
